With regard to the year-end report filed today, January 31, 2017, we still recognize an error in the Year-to-Date column and are continuing our work to reconcile those numbers. While the itemizations for recent reporting periods are accurate, there still is an item(s) that was over-reported (in amount). As such, our review and cross-referencing is taking additional time. We should have the matter resolved soon and will amend any prior reports as necessary. Thank you.
